World's Finest Products For Harley-Davidsons

Biltwell Handlebars

Biltwell handlebars are precision crafted with 100% seamless 4130 chromoly. The wall thickness of our tubing is a burly .120". Most handlebars are available smooth for custom applications, or with dimples to accommodate H-D original equipment throttle, brake and clutch assemblies.

- Precision mitered & TIG welded joints
- Seamless 4130 chromoly
- Two finishes: brilliant chrome plate, matte black electroplate

MOTORFACTORY®

MADE IN THE USA

XLO Chain

The XLO series chain is a full 40% stronger than standard chain and features permanent O-ring lubrication that seals in lubricant yet keeps out contaminants. These top of the line chains provide extra load-carrying capability and have a service life that averages four times that of a standard chain. Requires less maintenance than standard chains and due to less stretching, fewer adjustments are required.

Accel Thundersport 5mm Ignition Wire Kits

Half the diameter of stock wire and extremely flexible. Easy to run through cylinder heads, rocker covers, and frame tubes for a totally hidden look. 150 Ohms per foot Ferro-Spiral wound alloy conductor delivers super performance. The high gloss 5mm silicone jacket is rated for over 550 degree F and 60KV. They are available in four different colors, and packed with two 5 foot leads with 90 degree spark plug ends crimped on. Just run the wire, cut off excess, and follow the easy instructions to terminate the straight coil boots. Fits all models except those with Delphi fuel injection.

Billet 'Hyper Force' Multi-Plate Kit by Pistor

No more leaking air cleaners with the innovative adaptor plate with an internal engine breather and without any hoses. But that's not all, the 'Multi Plate' fits Keihin CV, Mikuni and S&S carburetors on Evolution models from 84-99, carbureted Twin Cam 88 models from 99-06, EFI Twin Cam models from 01-13 (except Touring 08-13), and all RevTech engines (with adaptor). Also available for Evolution Sportster models. Different mounting holes allow the mounting of twisted intake manifolds from CV, S&S, 'Hyper Force', KuryAkyn 'Hypercharger' and 'Forcewinder' air cleaners. Includes all necessary hardware and gaskets. Available with polished, black or chrome finishes. Requires a spacer if equipped with a standard air cleaner in wide tank applications. EFI models must use CC #686645 brackets. For multi plate mounted instruments see also page 17.26. Hyper Force Multiplate Classic and Radical fits also carbureted models and all EFI models 01-13 Delphy to present. except 08 up Touring models.

Billet Aluminum Coil Brackets and Mounts by MW

These stylish German-made billet coil brackets are CNC-machined and then given a highly-polished finish and furnished with stainless steel mounting hardware. They may be combined with one of the billet aluminum top motor mounts made by MW, or a lower cost alternative is to combine them with a CC #86290 adapter which permits them to be installed on any of the two-piece Original Equipment motor mounts used from 91-10. If desired, Original Equipment-style ignition switches can be installed on some of the coil mounts.

Ignition Switch Mounting Bracket

Used to install an ignition switch between the cylinders when your coils are mounted elsewhere. Accepts most Original Equipment and aftermarket ignition switches.

86289 Rubber isolator mount for 80-08 Touring and FXR models

86285 Design line V-style bracket with hole for ignition switch

Universal Exhaust Builders Kit

A selection of pre-fabbed 1 3/4" tubing, header flanges and exhaust tips that puts the art of custom exhaust building in your hands! Each Kit includes: Two 16-inch-long (350mm) straight sections, Two 3.5-inch radius (90mm) U-bends with Panhead flanges (flanges not shown in picture), Two 5-inch radius (134mm) U-bends with STD 3-hole flanges (flanges not shown in picture), Two Evolution cylinder flanges, Two Shovelhead cylinder flanges, Two Ironhead cylinder flanges and Two pinched tips. Everything needed to build a set of pipes for one bike, with enough scraps left over to start on another! Simply cut/weld as required, using the flanges that fit your engine. Finish them off with the exhaust wrap also featured in the Exhaust section for a bad-ass look! Kit does not include mounting brackets, clamps, snap rings and exhaust flange collars for Evo's, which are offered separately. Raw steel. From our buddies Magoo & Chris at Biltwell, Inc.

632735 Universal Exhaust Builders Kit

Kustom-Tech Spinner Dipstick

Machined from billet polish brass with stainless steel dipstick, fits all sidefill oil tanks. Looks great alone or combined to the K-tech brass spinner style gas cap.

696049 Spinner dipstick

Will not work with 08-09 FLH or 06-09 V-Rod models which utilize a brake master cylinder with a reduced piston size. Customers who opt for the PM 4 piston differential bore calipers must upgrade to an 11/16" brake master cylinder for optimal performance.

4" Billet Headlight

This is a beautifully styled billet bottom mount headlight. Available in a chrome-plated or black finish. Is EC approved and has an extra running light for safety.

688024 Chrome headlight

688025 Black headlight

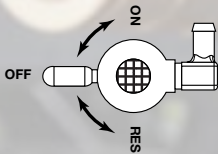

S&S Cycle Cylinder & Piston Conversion Kit

Riders with 883cc engines can satisfy piston envy quickly and easily with the 883-1200 cylinder and piston conversion kit. Boost any 883cc Harley-Davidson Sportster to 1200cc with no machining or rebalancing your stock 883cc flywheels because of the pistons weights are the same as stock 883 pistons. Cylinder head modification is also not needed. The dished piston dome keeps compression down to a streetable 9.4:1 with stock 883cc heads. Installing this kit takes the same time as replacing a stock top end. It's just more fun when you're done. Fits 86-13 883cc Sportster models!

601365 Cylinder Kit, black 3-1/2" Bore, 4.650" x 3-13/16" Stroke

601366 Cylinder Kit, silver 3-1/2" Bore, 4.650" x 3-13/16" Stroke

FORWARD

'Click-Slick' Petcocks by Goland Products

- Manufactured from 360 brass with stainless steel ball bearings and components
- Stainless steel internal ball bearings provide virtually friction-free movement of the petcock handle
- Available in either a brass or chrome-plated finish
- Features quick detents with a 90° movement from "on" to "off" to "reserve"
- Made in the U.S.A.

Ripple CV Carb Top by Biltwell

Plastic is for toys, not motorcycles! Replace that fugly stock carb top in about five minutes with just a screw driver. These sweet units are available in cast aluminum, gloss black powdercoat or in a fully polished, cast stainless steel. They are machined after casting to ensure accurate sealing, but the edges are left raw for that unique cast look. Fits 90-06 Big Twins and 88-06 Sportsters.

641616 Ripple CV carb top, black

DYNA2000

Dynatek 2000iP Programmable Ignition Systems

Dynatek has upgraded their popular 2000i ignitions to be fully programmable when used with the optional programming kit (see below).

- Completely self-contained under the cam cover for a clean look
- Heavy-duty billet aluminum construction for long life
- Single fire operation down to zero rpm for easier cranking and kicking
- Operates all combinations of single fire or dual fire with single plug or dual plug heads (when used with appropriate coils)
- Eight advance curves to cover a broad range of engine configurations and riding styles
- Engine over-rev protection adjustable from 6.000 to 7.500 rpm
- Adjustable timing retard for nitrous and turbo applications
- VOES indicator tells you at a glance, the status of the VOES switch
- Built-in tach driver can be used to activate shift lights and auto-shifters
- Easy static timing with built-in timing indicator
- Intelligent over-current/short-circuit protection, active dwell control and over-voltage protected
- Fits Sportster models from 70-03 and all Big Twin models from 70-99 (except Twin Cam 88 models)

630108 Dyna 2000i module ONLY

630101 Complete kit for single plug/single fire applications (includes one DC6-5 'Twin Fire II' 3 Ohm coil)

630102 Complete kit for single plug/single fire applications (includes two DC3-1 single tower 3 Ohm coils)

630103 Complete kit for dual plug/single fire applications (includes two Dyna DC1-1 dual tower 3 Ohm coils)

SPECIAL PARTS FOR SPECIAL PEOPLE

Regulator Protector Plate by Cheirons

Stainless steel plate to be mount on the lower downtube section with mesh insert. The insert stainless steel mesh is silver, the plate black powder coated.

619624 Sportster regulator protector plate, black/silver

SPECIAL PARTS FOR SPECIAL PEOPLE

Adjustable Shift Lever by Cheirons

Nice shift lever with adjustable length which can be adjusted in a range of 35 mm to fit your needs. The shift peg folds 90° backwards what protects the shifter shaft in case the bike falls over and features a bearing inside to roll over your toe. That makes shifting much smoother compare to the rigid OEM version. Fits most Sportster and Nighster models

619617 Adjustable Shift Lever, polished

619618 Adjustable Shift Lever, black

Thunder Jet Kits

Patented third fuel circuit has a built-in air correction system that permanently solves the problem of poor mid-range performance or a too-lean condition on the top end. It operates over a wide range of altitude and atmospheric conditions.

Thunder Jet for S&S, Bendix and Keihin Carburetors

May be installed on all S&S Super 'B and E' models as well as Bendix/Zenith and Keihin (except CV) carburetors.

Motoscope Mini

The Motoscope mini from Motogadget features a multifunctional digital instrument, which is extremely compact and lightweight. The LED display is a proprietary development by Motogadget especially designed for the Motoscope mini. This display represents an absolute novelty in the field of digital instruments. 251 ultra-bright LEDs form an almost rimless display area that provides for faultless readable indications and different modes of programming. Due to its unostentatious and elegant design and its superb visual and function-related quality the Motoscope mini is eminently suited to almost all two or four wheel custom vehicles - whether they are fighters, low riders, sports bikes, enduros, super motos or even quads, mini-Bikes, scooters and custom cars. The Motoscope mini can be either positioned prominently to enhance a vehicle's style or can be integrated unobtrusively for an absolutely clean look! And finally for all weight fetishists: a bicycle speedometer can hardly beat a weight of 32 grams including connection cable. The Motoscope mini comes including manual, sensor, mini push button, plug kit and 2 screws. With ABE.
