**ROAD KING 2018**

# WHAT'S BOAR?

Since 2009, Custom Chrome Europe has inspired the scene with a new slogan: „Bolt On and Ride“. While neither „Bolt On“ nor „Ride“ are new themes in a long established and creative customizing scene, the CCE team has successfully combined both themes into now annually built custom bikes which are based on existing motorcycle models that are modified with the latest and best parts available from the worldwide aftermarket. „Bolt On“ stands for easy to mount custom parts, some to be installed by the owner or garage customizers, others, more sophisticated parts, by professional CCE partners, custom shops or authorized Harley-dealers – but it never stopped the individual builder from further individualization, be it by color, surface finish treatment, engravings or what ever creative ideas come to mind. And the “Ride” part? This is not just for pleasure, but assures the CCE team that these parts will work under rough and sometimes extreme conditions when the CCE team is “On the Road” to events all over Europe. But yes, the “Ride” part is also fun ...

Mexican customizers and „Harlistas“ have their own style: „Chicano“ does usually refer to the language spoken by Mexican immigrants, but it is also a very distinctive custom-bike style. It is usually defined by sky high ape-hanger handlebars, extremely long exhaust system (for which „mufflers“ would not be the correct term ...) and gleaming paintjobs, often with „Day of the Death“ themes. In Europe, the „Chicano style“ is especially popular in Italy and France, but also gaining interest in other countries and will become bigger in the near future: „Sons of Anarchy“ known MC „The Mayans“ now has its own TV-Series spin-off, running into a 2<sup>nd</sup> season in 2020. Custom Chrome Europe has many parts in stock to create „Chicano style“ customs and Harley-Davidson Wuerzburg Village adapted many of them for the current 2018 model year „Road King“.

Drivability and homologation concerns did ask for a milder version of the classic „Chicano“, but a lot of parts come from California’s Arlen Ness – who also equipped some of the TV-series custom-bikes. Mixed here with European-made components and technology, this is one trend-setting custom that also is a great riding bike.
