Wannabe-Choppers CANIOX Module for CAN-BUS models

Since 2011 several HD models are equipped with a CAN-BUS a.k.a. "HD-LAN". This internal communication system restrains certain replacement of components like the handlebar control switches. CANIOX has been developed to overcome this problem and to enable you to use custom handlebar controls e. g. from PM, Rebuffini, Joker Machine, RST or Ness (to name just a few of them). Up to now customizers had to disassemble the OEM CAN-BUS hand control units, remove the original electronic circuit boards and connect them to replacement switches. This has been a time consuming effort which destroyed the OEM hand control units, worth about 800 Euro (Set). It has been a risky job too because a single short-circuit due to a bad soldering of the wires could easily block the whole HD-LAN communication. CANIOX is a self-contained 53 mm x 73 mm x 16 mm small unit with wires of sufficient length to conventionally connect them to the handlebar wire harness. Colour coded wires and an easy but sufficient installation guide are facilitating the mounting of CANIOX. After installation CANIOX receives the switch signals of common handle bar controls and translates them into CAN-BUS messages for the HD-LAN system.

Ritz Triple Trees with 13° Rake with Approval

Ritz triple tree with 13° rake for 41mm or 49 mm fork tubes contains weld on steering lock, triple trees, 200 mm fork tube extensions (raw steel) and fork tube sleeves aluminum polished (to be placed between the triple trees). An ideal solution to build a long fork chopper. The additional 13° rake of the Ritz triple tree allows to build up real long fork bikes. The front wheel adapter kits are available separately depending on model and front axle size. Always check ground clearance of the bike after conversion under brake and cornering circumstances.

For 41 mm forks

889698 Fits all H-D models -88 with steering head bearing cups and 41 mm fork tubes

889699 Fits all H-D models 89- without steering head bearing cups and 41 mm fork tubes

For 49 mm forks
