## Waterproof Polyester Aircleaners by Sprint Filter

Sprint Filter with P08 has reinvented the concept of a special air filter. Unlike materials like cotton which fiber breaks easily or sponge that is inconsistent under pressure but an innovative polyester material that allows an air passage to be constant and calibrated. Sprint Filter P08 is an air filter that provides a zero-maintenance practicality. Just remove the filter from the airbox, blow it clean with compressed air and re-insert it in. No washing or oil treatments required! Also the use of a rainsock is not necessary!

**607795** Fits V-ROD models 04-16 (repl. OEM 9437-01)
